

## features and benefits

- Certified “slip resistant” by the National Floor Safety Institute.
- Molded surface effectively scrapes tough dirt off soles of shoes, before entering the building, while providing extra slip resistance.
- Heavy duty rubber ensures the mats will stay in place under heavy foot traffic and windy conditions.
- Performs exceptionally well wherever slip-resistance is required.
- SuperScrape Eco mats are equally effective when placed vertically or horizontally.
- Available in Black.
