features and benefits

- The mat surface is made from 100% post-consumer recycled PET polyester fiber derived from plastic drinking bottles. A 3'x5' mat diverts approximately 60 bottles from landfills.
- Rubber backing contains 20% post-consumer recycled tires.
- Durable Polypropylene face is suitable for indoor or outdoor use.
- "Water Dam" border is designed to hold dirt and moisture.
- Raised "nubs" trap dirt and moisture below foot level and are resistant to crushing, maintaining high performance and extending product life.
- Highly absorbent fabric allows mats to hold up to 1.5 gallons of water per square yard, keeping moisture off carpets and floors.
- Certified "high traction" by the National Floor Safety Institute.
